

Data Request Form

To obtain data from the European Vegetation Archive (EVA), please first make an enquiry to the EVA database administrator Ilona Knollová (ikuzel@sci.muni.cz) whether the data meeting your needs are available. If they are, please fill in the form below and submit it to Milan Chytrý (chytry@sci.muni.cz) or another member of the EVA Coordinating Board.

- Applicant's name:

Michal Hájek

- Applicant's institutional address:

Masaryk University

- Applicant's e-mail:

hajek@sci.muni.cz

- Project title:

Vegetation affinity of *Juncus castaneus* and *Juncus triglumis*

- Brief description of aims and methods of the study:

Reporting first/new records of these species in the Western Carpathians and comparison of local species compositions with other European regions. Methods of unconstrained gradient analysis will be used: DCA or NMDS or PCoA. No individual relevés will be published.

- Will someone else be involved in data editing or analysis in addition to the applicant?

Daniel Dítě, Slovak Academy of Science

- Estimated time of delivery of results (e.g. manuscript submission):

spring 2016

- Geographic area needed (e.g. countries or range of geographic coordinates):

All Europe

- Vegetation types needed (syntaxa):

All syntaxa, presence of these species will be a criterion

- Other data selection criteria:

Just presence of *Juncus castaneus* and *Juncus triglumis*

- Envisaged publications:

One publication focused on these two species in the Western Carpathians

- Specification of the co-authorship arrangements in publications based on the requested data (e.g. the extent of possible involvement of the original data providers, or of EVA data managers if extra work for this project is needed from them):

Data Request Form

All published data will be fully cited in the Reference list. The name and number of database will be referred in Data sources. We will invite authors of unpublished data who contribute more than 5% of the data of the final selection to get co-authors. We are open to enlarge our scope beyond the simple „background“ analysis that is planned for our study if database custodians will introduce new ideas and suggestions they may result in another join publication.

I agree with the terms of EVA Data Property and Governance Rules as approved on 26 May 2012 (<http://euroveg.org/download/eva-rules.pdf>).

Brno, 1st December 2015

Michal Hájek

Recommendation:

Michal Hájek is a contributor to the Czech National Phytosociological Database and I recommend this EVA data request.

Milan Chytrý
