

ReSurveyEurope

Project Metadata Form

When contributing data to ReSurveyEurope, please fill in this form for each resurvey project and send it to Ilona Knollová (ikuzel@sci.muni.cz) together with the database. A resurvey project is understood as repeated sampling of a certain type of vegetation in a certain study area using specific methods.

- PROJECT NAME (identical with the Resurvey Project name given in the database):

Resampling of grassland vegetation in Ponor Mts.

- FULL PROJECT NAME (use if the full project name is longer than used in the database):

Resampling of grassland vegetation in Ponor Mts.

- REFERENCE (publication or URL or DOI of the dataset if published online):

Data are not fully published online. Partly results are published in :
<https://www.researchgate.net/publication/273142680> LOCAL OCCURRENCE OF ARTEMISIA CHAMAEMELIFOLIA VILL IN BULGARIA
<https://www.researchgate.net/publication/287859250> Festuco-Brometea In Western Bulgaria with an Emphasis on Cirsio-Brachypodium Pinnati

- DATA OWNER: person(s), institution(s):

Kiril Vassilev, Institute of Biodiversity and Ecosystem Research, Bulgaria

- CONTACT E-MAIL:

Kiril5914@abv.bg

- METHODS (description of sampling design and methods):

Were used Braun-Blanquet method with plot size 16 m².

- ENVIRONMENTAL DATA (list of environmental data measured):

Altitude, Aspect, Slope, soil depth, bedrock type, soil parameters – pH, conductivity, Humus

- MANIPULATED PLOTS (description of the treatment if the plots were manipulated, e.g. mowing twice a year, fertilizing by NPK once a year, post-fire succession)

Mowing/Pasture in June-July

Sofia, 16.04.2021
