

ReSurveyEurope

Project Metadata Form

When contributing data to ReSurveyEurope, please fill in this form for each resurvey project and send it to Ilona Knollová (ikuzel@sci.muni.cz) together with the database. A resurvey project is understood as repeated sampling of a certain type of vegetation in a certain study area using specific methods.

- PROJECT NAME (identical with the Resurvey Project name given in the database):

Krivoklatsko-ReSurveyEurope

- FULL PROJECT NAME (use if the full project name is longer than used in the database):

- REFERENCE (publication or URL or DOI of the dataset if published online):

- DATA OWNER: person(s), institution(s):

Petr Petřík, Institute of Botany, Czech Academy of Sciences

- CONTACT E-MAIL:

petrik@ibot.cas.cz

- METHODS (description of sampling design and methods):

Fenced area was divided into 25 subplots 5 × 5 m. Since 2004, in June/July, the vegetation of subplots has been monitored by the method of the Zurich-Montpellier School using a semi-quantitative combined scale for cover estimation. The authors of the relevés are Petr Petřík, Tomáš Černý and Karel Boublík.

- ENVIRONMENTAL DATA (list of environmental data measured):

pH (H₂O), pH (KCl), C/N, Ca, Mg, Al, H, P

- MANIPULATED PLOTS (description of the treatment if the plots were manipulated, e.g. mowing twice a year, fertilizing by NPK once a year, post-fire succession)

fencing
