

## ReSurveyEurope

## **Project Metadata Form**

When contributing data to ReSurveyEurope, please fill in this form for each resurvey project and send it to Ilona Knollová (<a href="mailto:ikuzel@sci.muni.cz">ikuzel@sci.muni.cz</a>) together with the database. A resurvey project is understood as repeated sampling of a certain type of vegetation in a certain study area using specific methods.

area using specific methods.	
•	PROJECT NAME (identical with the Resurvey Project name given in the database):  Zakova hora forest development
•	FULL PROJECT NAME (use if the full project name is longer than used in the database):  Monitoring of forests left to spontaneous development
•	REFERENCE (publication or URL or DOI of the dataset if published online):
•	DATA OWNER: person(s), institution(s):
	The Silva Tarouca Research Institute for landscape and Ornamental Gardening, Department of Forest Ecology
•	CONTACT E-MAIL:
•	unar@vukoz.cz  METHODS (description of sampling design and methods):
	Preferential localization of relevés in order to capture the habitat diversity of the site. The relevés are circular with $r = 12.7 \text{ m} (500 \text{ m}^2)$
•	ENVIRONMENTAL DATA (list of environmental data measured):
•	Orientation, slope  MANIPULATED PLOTS (description of the treatment if the plots were manipulated, e.g. mowing twice a year, fertilizing by NPK once a year, post-fire succession)
	The time a year, tertilizing by the k office a year, post the succession
