

ReSurveyEurope

Project Metadata Form

When contributing data to ReSurveyEurope, please fill in this form for each resurvey project and send it to Ilona Knollová (ikuzel@sci.muni.cz) together with the database. A resurvey project is understood as repeated sampling of a certain type of vegetation in a certain study area using specific methods.

- PROJECT NAME (identical with the Resurvey Project name given in the database):

Primeval Forests
CZ_0026f Boubín Forest Development
CZ_0026g Cahnov-Soutok Forest Development
CZ_0026h Ranšpurk Forest Development
CZ_0026i Žofín Forest Development

- FULL PROJECT NAME (use if the full project name is longer than used in the database):

Monitoring of forests left to spontaneous development

- REFERENCE (publication or URL or DOI of the dataset if published online):

- DATA OWNER: person(s), institution(s):

The Silva Tarouca Research Institute for landscape and ornamental gardening,
Department of Forest Ecology

- CONTACT E-MAIL:

pavel.unar@vukoz.cz

- METHODS (description of sampling design and methods):

Preferential localization of relevés in order to capture the habitat diversity of the site.
The relevés are circular with $r = 12.7$ m (500 m²)

- ENVIRONMENTAL DATA (list of environmental data measured):

Orientation, slope

- MANIPULATED PLOTS (description of the treatment if the plots were manipulated, e.g. mowing twice a year, fertilizing by NPK once a year, post-fire succession)

Brno, 1. 2. 2024

Pavel Unar
