

ReSurveyEurope

Project Metadata Form

When contributing data to ReSurveyEurope, please fill in this form for each resurvey project and send it to Ilona Knollová (ikuzel@sci.muni.cz) together with the database. A resurvey project is understood as repeated sampling of a certain type of vegetation in a certain study area using specific methods.

- PROJECT NAME (identical with the Resurvey Project name given in the database):

Dengler_DE_Brandenburg_Festuco-Brometea

- FULL PROJECT NAME (use if the full project name is longer than used in the database):

Resurvey of vegetation plots of the classes Festuco-Brometea and Trifolio-Geranietea after 25 years in dry grasslands of NE Brandenburg (Germany)

- REFERENCE (publication or URL or DOI of the dataset if published online):

Gärtner, J. (2019) Assessing the role of management regimes on vegetation dynamics in basophilic dry grasslands in North Eastern Germany. Master thesis, University of Potsdam, Potsdam: 71 pp.

- DATA OWNER: person(s), institution(s):

Jürgen Dengler, ZHAW, Wädenswil, Switzerland
Julian Gärtner, Nagola Re, Jänschwalde, Germany

- CONTACT E-MAIL:

dr.juergen.dengler@gmail.com
julian.gaertner@nagolare.de

- METHODS (description of sampling design and methods):

89 10-m² plots from 3 alliances resampled after ca. 25 yr (1993/1997-2018) with ca. 20 m relocation accuracy
Details, see spreadsheet "Readme" in the provided Excel file

- ENVIRONMENTAL DATA (list of environmental data measured):

Slope aspect (verbal)
Slope angle (°)

- MANIPULATED PLOTS (description of the treatment if the plots were manipulated, e.g. mowing twice a year, fertilizing by NPK once a year, post-fire succession)

None

Wädenswil, 24 January 2021

Jürgen Dengler
