

ReSurveyEurope

Project Metadata Form

When contributing data to ReSurveyEurope, please fill in this form for each resurvey project and send it to Ilona Knollová (ikuzel@sci.muni.cz) together with the database. A resurvey project is understood as repeated sampling of a certain type of vegetation in a certain study area using specific methods.

- PROJECT NAME (identical with the Resurvey Project name given in the database):

Resurvey-dq-sachsen

- FULL PROJECT NAME (use if the full project name is longer than used in the database):

Sächsisches Grünland (permanent plots of various grassland types of Saxony, Germany)

- REFERENCE (publication or URL or DOI of the dataset if published online):

None

- DATA OWNER: person(s), institution(s):

Landesamt fuer Umwelt Landwirtschaft und Geologie Sachsen; contact person:

- CONTACT E-MAIL:

stefan.kesting@smul.sachsen.de

- METHODS (description of sampling design and methods):

Method: Braun-Blanquet
Scale: LONDO (extended)

- ENVIRONMENTAL DATA (list of environmental data measured):

1. Altitude
2. Aspect
3. Slope
4. Cover total (=100-(cov litter +Cov. Soil)
5. Cover tree layer/shrub layer/herb layer/mossclayer
6. Cover litter
7. Aver. height high herbs (= 1. Layer average in cm); Aver. height low herbs (= 2. Layer average in cm)
8. Cover soil
9. Bodentyp (= soil type, not metrical data!)
10. Longitude/latitude

- MANIPULATED PLOTS (description of the treatment if the plots were manipulated, e.g. mowing twice a year, fertilizing by NPK once a year, post-fire succession)

None
