

## ReSurveyEurope

### Project Metadata Form

When contributing data to ReSurveyEurope, please fill in this form for each resurvey project and send it to Ilona Knollová ([ikuzel@sci.muni.cz](mailto:ikuzel@sci.muni.cz)) together with the database. A resurvey project is understood as repeated sampling of a certain type of vegetation in a certain study area using specific methods.

- PROJECT NAME (identical with the Resurvey Project name given in the database):

Hundt\_2001

- FULL PROJECT NAME (use if the full project name is longer than used in the database):

- REFERENCE (publication or URL or DOI of the dataset if published online):

Rudolf Hundt, (2001): Ökologisch-geobotanische Untersuchungen an den mitteldeutschen Wiesengesellschaften unter besonderer Berücksichtigung ihres Wasserhaushaltes und ihrer Veränderung durch die Intensivbewirtschaftung im Rahmen der Großflächenproduktion. Mitteilungen aus dem Biosphärenreservat Rhön/Thüringen. 366 S.

- DATA OWNER: person(s), institution(s):

Ute Jandt, Helge Bruelheide, Geobotany & Botanical garden, Martin Luther Univ. Halle-Wittenberg, 06108 Halle, Germany

- CONTACT E-MAIL:

Ute.Jandt@botanik.uni-halle.de

- METHODS (description of sampling design and methods):

Resurvey of selected plots, originally in a larger dataset collected for vegetation classification, sampling by always the the same person (R. Hundt) I guess the relocation method was according to maps, descriptions and memory, but this is not documented.

- ENVIRONMENTAL DATA (list of environmental data measured):

PH and some other soil nutrients, groundwater depth ("GW")

- MANIPULATED PLOTS (description of the treatment if the plots were manipulated, e.g. mowing twice a year, fertilizing by NPK once a year, post-fire succession)
