

## ReSurveyEurope

## **Project Metadata Form**

When contributing data to ReSurveyEurope, please fill in this form for each resurvey project and send it to Ilona Knollová (<a href="mailto:ikuzel@sci.muni.cz">ikuzel@sci.muni.cz</a>) together with the database. A resurvey project is understood as repeated sampling of a certain type of vegetation in a certain study area using specific methods.

•	PROJECT NAME (identical with the Resurvey Project name given in the database):
	RMO
•	FULL PROJECT NAME (use if the full project name is longer than used in the database):
	Rhine-Main-Observatory
•	REFERENCE (publication or URL or DOI of the dataset if published online):
	-
•	DATA OWNER: person(s), institution(s):
	Prof. Dr. Peter Haase, Senckenberg Research Institute
•	CONTACT E-MAIL:
	Peter.haase@senckenberg.de
_	METHODS (description of compline design and motheds).
•	METHODS (description of sampling design and methods):
	Long-term monitoring of riparian vegetation. Mapping of vegetation according to Braun- Blanquet methods, permanent plots, marked in the field
	Bianquet methous, permanent piots, markeu in the neid
•	ENVIRONMENTAL DATA (list of environmental data measured):
	-
•	MANIPULATED PLOTS (description of the treatment if the plots were manipulated, e.g.
	mowing twice a year, fertilizing by NPK once a year, post-fire succession)
	-
