ReSurveyEurope

Project Metadata Form

When contributing data to ReSurveyEurope, please fill in this form for each resurvey project and send it to Ilona Knollová (ikuzel@sci.muni.cz) together with the database. A resurvey project is understood as repeated sampling of a certain type of vegetation in a certain study area using specific methods.

- PROJECT NAME (identical with the Resurvey Project name given in the database):

  Gorbeia Violion

- FULL PROJECT NAME (use if the full project name is longer than used in the database):

- REFERENCE (publication or URL or DOI of the dataset if published online):

- DATA OWNER: person(s), institution(s):

  Daniel García-Magro, Univ. Basque Country

- CONTACT E-MAIL:

  danigarcia1985@hotmail.com

- METHODS (description of sampling design and methods):

  Location method: 02; six big 10 m x 10 m plots (A to F), divided in a grid with 100 1 m2 subplots. 10 subplots were randomly selected in each plot, and sampled every year.

- ENVIRONMENTAL DATA (list of environmental data measured):

  Elevation, slope, aspect, soil depth, soil physico-chemical parameters

- MANIPULATED PLOTS (description of the treatment if the plots were manipulated, e.g. mowing twice a year, fertilizing by NPK once a year, post-fire succession)

  Two plots are fenced until beginning of summer

Bilbao, 7 February 2021

Daniel García-Magro
