

## ReSurveyEurope

### Project Metadata Form

When contributing data to ReSurveyEurope, please fill in this form for each resurvey project and send it to Ilona Knollová ([ikuzel@sci.muni.cz](mailto:ikuzel@sci.muni.cz)) together with the database. A resurvey project is understood as repeated sampling of a certain type of vegetation in a certain study area using specific methods.

- PROJECT NAME (identical with the Resurvey Project name given in the database):

ElTiemblo\_Avila

- FULL PROJECT NAME (use if the full project name is longer than used in the database):

Therophytic pastures from El Tiemblo Avila

- REFERENCE (publication or URL or DOI of the dataset if published online):

- DATA OWNER: person(s), institution(s):

Javier Pérez Hernández, Rosario Gavilán

- CONTACT E-MAIL:

[japere08@ucm.es](mailto:japere08@ucm.es); [rgavilan@ucm.es](mailto:rgavilan@ucm.es)

- METHODS (description of sampling design and methods):

Purpose of the study – Study of a chronosequence in abandoned vineyards, from 2 to 42 years of abandonment.  
Type of vegetation. Annual mediterranean grasslands.  
Research area. Avila: El Tiemblo. 600-800 m.  
Type of plots – resampling (quasi-permanent plots).  
Cover scale: Braun Blanquet (%).

- ENVIRONMENTAL DATA (list of environmental data measured):

Basic soils traits were also measured

- MANIPULATED PLOTS (description of the treatment if the plots were manipulated, e.g. mowing twice a year, fertilizing by NPK once a year, post-fire succession)

No manipulation

[place, date] Madrid, January 31 2021
