

ReSurveyEurope

Project Metadata Form

When contributing data to ReSurveyEurope, please fill in this form for each resurvey project and send it to Ilona Knollová (ikuzel@sci.muni.cz) together with the database. A resurvey project is understood as repeated sampling of a certain type of vegetation in a certain study area using specific methods.

- PROJECT NAME (identical with the Resurvey Project name given in the database):

VIOLA database

- FULL PROJECT NAME (use if the full project name is longer than used in the database):

VegetatIOn of central Apennines

- REFERENCE (publication or URL or DOI of the dataset if published online):

<http://dx.doi.org/10.1127/phyto/2016/0135>

- DATA OWNER: person(s), institution(s):

Angela Stanisci, Maria Laura Carranza, Marco Varricchione, University of Molise (Italy); Carmen Giancola, Giardino della Flora Appenninica Capracotta (IS)

- CONTACT E-MAIL:

stanisci@unimol.it; carranza@unimol.it; carmengiancola@gmail.com;

- METHODS (description of sampling design and methods):

Phytosociological relevées and permanent plots (1x1 m - protocol project GLORIA)
Nomenclature checked in Flora Europea and Flora d'Italia.

- ENVIRONMENTAL DATA (list of environmental data measured):

Geographical coordinates (utilizing GPS);
Vascular plant species list and abundance-cover.

- MANIPULATED PLOTS (description of the treatment if the plots were manipulated, e.g. mowing twice a year, fertilizing by NPK once a year, post-fire succession)

Termoli (Italy), 2021/01/29

Angela Stanisci, Maria Laura Carranza, Marco Varricchione
