ReSurveyEurope

Project Metadata Form

When contributing data to ReSurveyEurope, please fill in this form for each resurvey project and send it to Ilona Knollová (ikuzel@sci.muni.cz) together with the database. A resurvey project is understood as repeated sampling of a certain type of vegetation in a certain study area using specific methods.

- PROJECT NAME (identical with the Resurvey Project name given in the database):

  Succession red pine forests TR

- FULL PROJECT NAME (use if the full project name is longer than used in the database):

- REFERENCE (publication or URL or DOI of the dataset if published online):

  Published literature data https://doi.org/10.2478/v10184-010-0013-6

- DATA OWNER: person(s), institution(s):

  Behlül Güler, Dokuz Eylul University

- CONTACT E-MAIL:

  behlul.guler2@gmail.com

- METHODS (description of sampling design and methods):

  Data consists of floristic change of burnt areas in 4 permanent plots, which is evaluated as a single plot (400 m^2). Fire occurred in 1989. Data was collected yearly from 1989 to 1992. GPS coordinates of location obtained from the study.

- ENVIRONMENTAL DATA (list of environmental data measured):

  Elevation

- MANIPULATED PLOTS (description of the treatment if the plots were manipulated, e.g. mowing twice a year, fertilizing by NPK once a year, post-fire succession)

  post-fire succession

Izmir, 29.11.2021
