

International Association for Vegetation Science

SECOND INTERNATIONAL WORKSHOP

"EUROPEAN VEGETATION SURVEY"

ROMA, March 12-13. 1993

PROGRAM (ORIENTATIVE)

12.3.93 - scientific lectures:

morning session (9.00 a. m.): REGIONAL SURVEYS

GEHU J.M. - Essai pour un prodrome synsystematique de France

MUCINA L. - Puccinellio-Salicornietea in Austria: Numerical vs. classical elaboration

RODWELL J. - Phytosociological conspectus of british plant communities

coffee break

SELISKAR A. - Incorporation of southeastern syntaxa into European vegetation

PETRICCIONE B. - Syntaxonomy of Sesleria-grasslands in S-Europe

SOLOMETCH A. - Survey of eastern european forests

VALACHOVIC M. - Sedo-Scleranthetea in Slovakia

lunch

afternoon session (3.00 p.m.): GENERAL PROBLEMS AND METHODS

RIVAS MARTINEZ S. - Biogeographic and climatic models to be used in the European Vegetation Survey

KLOTZ - Vegetation changes and the European Vegetation Survey

FANELLI G. and LUCCHESI F. - Syntaxonomy of Brometalia rubentictori

coffee break

MORAVEC J. - Syntaxa subordinated to association - their system and nomenclature

PIGNATTI S. & al. - On the concept of vegetation classes

HOPKINS - How phytosociology is used to evaluate nature conservation

13.3.93 - General discussion on the "SURVEY"

general session (9.00-12.00 a.m. - lunch - 2.30-6.00 p.m.)

Reports on activities during 1992 (J. RODWELL - L.MUCINA - J. SCHAMINEE)

Financial problems; CEE request for funding

Proposals for technical instructions to collaborators

Data bank and processing procedures

Collaborators

Questionnaire for participants in the Survey

Proposal of a Survey of European Vegetation based on classes (L. MUCINA)

Draft proposals for the General Assembly IAVS which will be held in Tenerife, April 1993

Software demonstrations (J. RODWELL - J. SCHAMINEE)
