"EUROPEAN VEGETATION MEETING"

ROMA, March 22 1993

Dear Sirs,

With this second and last circular I would like to give some information on the Workshop. It will start on March 26 (Saturday) at 9.00 a.m. in the Botanic Garden of the University in the same place as in the previous years. Your accommodation in Centro S. Spirito is confirmed. A provisory program in the next sheet.

At March 27 (Sunday) there are political elections in Italy: this will not change the program but will make difficult to participate for several nations. At Sunday an excursion in the vicinity of Rome will be organized, with a reasonable compromise between historical sites and vegetation. Last winter was very mild and the spring is developing very rapidly: we can hope to have mediterranean vegetation in a fine condition.

Please, confirm by fax your participation. Looking forward to see you in Rome.

Yours sincerely,

Sandro Pignatti

PS - Persons coming to the International Airport Roma-Fiumicino (FCO) take the train just in the Airport (departures at 15', 35', 55' from 7 a.m. to 12 p.m.). Tickets (7.000 Lit) at the automatic distributors in the entrance of the Railway Station. Stop in Roma Trastevere (the 1st stop) and take the bus 280 (or any other going to the center) and stop at the end of Viale Trastevere before crossing the Tiber. Remember that Centro S. Spirito is closed at 11 p.m. (23.00 h) and the travel from the Airport to the last 19 to 2 hours.

PROGRAM (tentative)

Saturday March 26

- 9.00 - Gehu G. M.: Synoptique phytosociologique de la végétation des côtes de France
9.30 - Schaminée J.: European Documentation Center for phytosociological data
10.15 - coffee break
10.30 - Elias P.: Towards the unifying national vegetation surveys: higher syntaxa level
10.50 - Rodwell J.: Questionnaire for the European Vegetation Survey - Applications to EU LIFE programme and other sources of funding
11.30 - Moravec J.: Participation of Czech phytosociologists on the project "European Vegetation Survey"

Mucina L.: Proposals for the redaction of the book on Vegetation Classes of Europe

12.30 - Pignatti S.: European Vegetation Survey - Net of European institutions and their first approximation

13.00 - 14.00 - lunch

14.30 - Moravec J.: Problems with the publication of original diagnoses of associations and lower syntaxa - Unification of taxonomic nomenclature within the project "European Vegetation Survey"

15.00 - Hennekens S.: Chorological aspects of ruderal vegetation of Central and North-East Germany

15.30 - Software demonstrations by S. Hennekens and others

16.00 - Closing remarks

Sunday March 27

9.00 - Discussion
