

ReSurveyEurope

Project Metadata Form

When contributing data to ReSurveyEurope, please fill in this form for each resurvey project and send it to Ilona Knollová (ikuzel@sci.muni.cz) together with the database. A resurvey project is understood as repeated sampling of a certain type of vegetation in a certain study area using specific methods.

- PROJECT NAME (identical with the Resurvey Project name given in the database):

Krickl_Poschlod

- FULL PROJECT NAME (use if the full project name is longer than used in the database):

Resurvey calcareous grasslands southwest Germany

- REFERENCE (publication or URL or DOI of the dataset if published online):

unpublished

- DATA OWNER: person(s), institution(s):

Peter Poschlod, Institute of Plant Sciences, Faculty of Biology and Preclinical Medicine,
University of Regensburg, Universitaetsstrasse 31 D-93053 Regensburg, Germany

- CONTACT E-MAIL:

peter.poschlod@ur.de,

- METHODS (description of sampling design and methods):

Resurvey of several plots of 2x2 m along one or two transects per site
Cover of vascular plants in percent

- ENVIRONMENTAL DATA (list of environmental data measured):

- MANIPULATED PLOTS (description of the treatment if the plots were manipulated, e.g. mowing twice a year, fertilizing by NPK once a year, post-fire succession)
